

Available Disposable Payload for Fixed Wing P68 C

1 crew operation

2 crew operation

Guidelines for Fixed wing aircraft loading of passengers and luggage. The pie graphs are guideline illustrations of the estimated total weight of passengers and luggage that can be carried per trip, to and from the indicated destination – the Available Disposable Payload. The number of seats in each aircraft is not the only factor affecting the number of passengers and how much baggage they can take; destination, distance and weather must be taken into account.

We hope that this information will assist you when booking your flight and ensure that you and your clients have a pleasant and trouble free experience with ZilAir. Please note that these loads will vary depending on the weather as more fuel upload may be required
