

Vulcan Air P68C

The Vulcan Air Aircraft P68C is a twin engine, high wing, fixed landing gear aircraft.

Functional yet luxurious, the aircraft provides space for up to five adults providing passengers with ample space in comfortable leather seats... an experience synonymous with Zil Air's aerial limo services. This Vulcan Air underlines the core values of design excellence, the use of contemporary materials and the confidence of superb build quality and innovation.

It is Zil Air's vision to ensure cost effective travel options to its client base and the P68C is very much about providing this diversity. Night operations to equipped airfields is another key factor in the choice of this aircraft.

Passenger

Day flight to inner and outer islands.
4 passengers and up to 2 infants with the possibility of taking a 5th passenger, depending on the destination and total payload. Infants aged 1 day to not exceeding 23 months can be seated on parent's laps. Children over the age of 2 must occupy their own seat under adult supervision.

Luggage

Luggage capacity for up to 4 large soft suitcases including mid size fishing rods.

Please refer to the 'Available Payload Chart'.
